REASONS FOR ALLOWANCE

1. Because applicants amended their claim to recite "1 to 10 parts by weight of an acid-generating compound which is an onium salt compound having a fluoroalkylsulfonate as the anionic constituent," the effective filing date of present application is August 21, 1998 (which is the date for the Japanese priority document). Thus, previous 102(e) rejection on claims 10-14 over Oomori et al'144 is hereby withdrawn.

2. The following is an examiner's statement of reasons for allowance: As previously indicated, Takemura (5,759,739) in view of Yoshimoto (EP'032) and Suwa et al'504 does not teach or render obvious present invention of claim 10 because Takemura's composition has to have an alkali-soluble resin, which presence is excluded by the present claim language ("consists of") of claim 10.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
